

MAKA
CHAIN

How to create a Makachain account and a transaction payment

MAKA
CHAIN

makachain.io

Esta guía proporciona instrucciones paso a paso sobre cómo crear una cuenta de Makachain y cómo crear un pago de transacción.

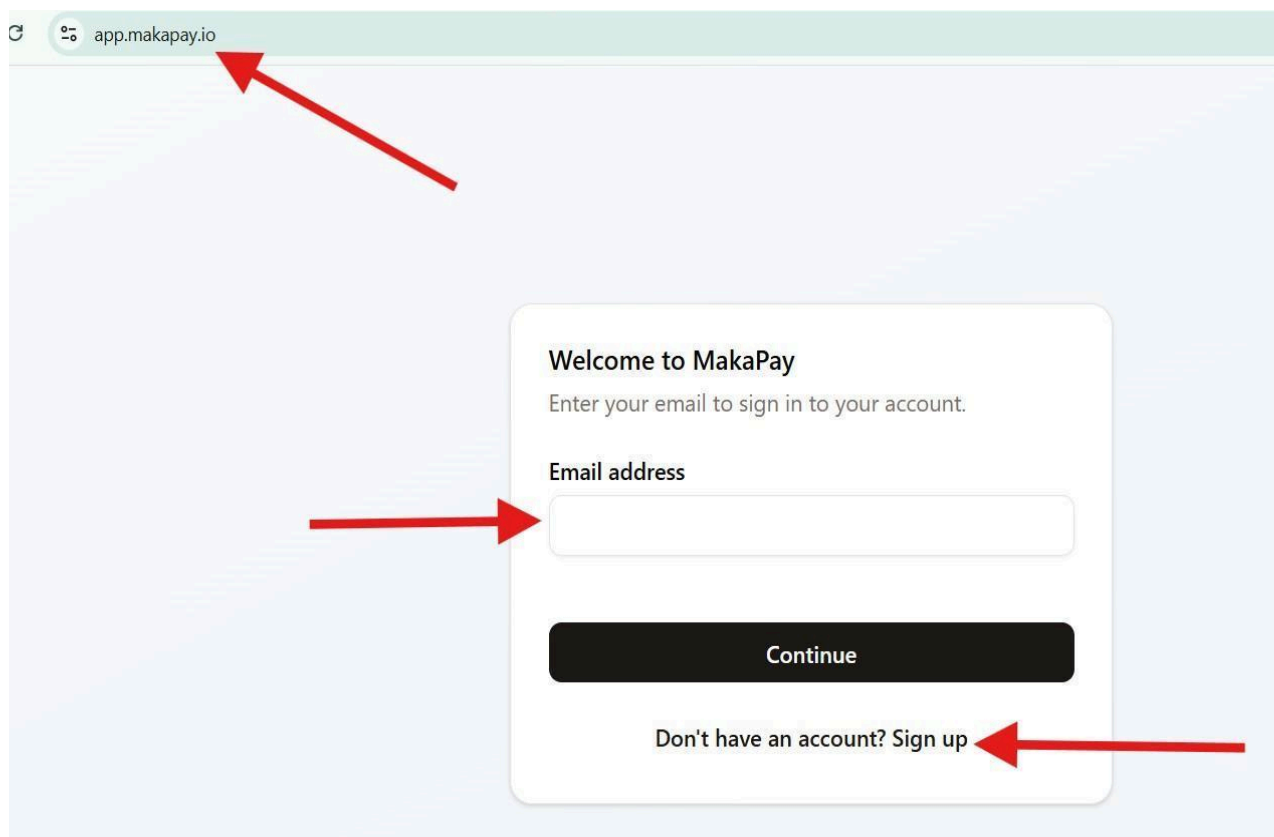

Puedes ver el video tutorial aquí:

<https://www.youtube.com/watch?v=6NXkyj8RSB4>

1

Para crear una cuenta de Makachain, primero debes ir a <https://app.makapay.io/> y hacer clic en "Don't have an account? Sign up", luego añade tu dirección de correo electrónico y haz clic en "Continue".

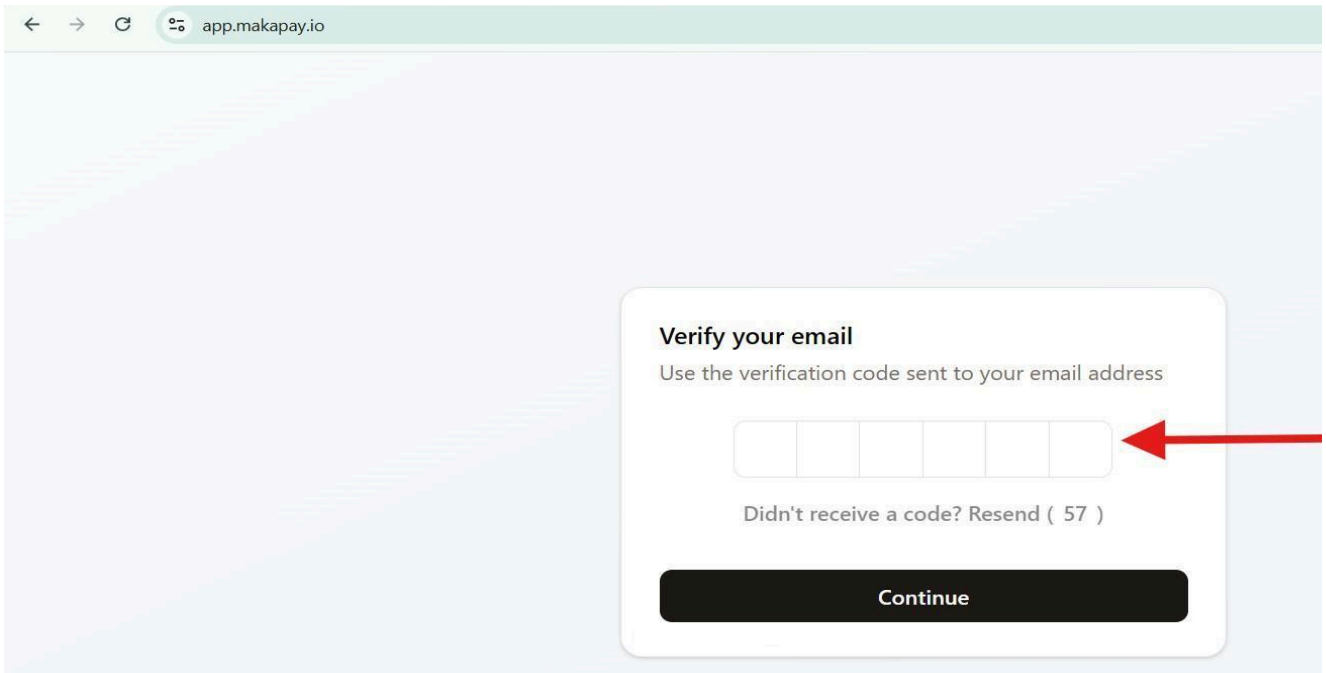

Si ya has creado tu cuenta, solo introduce tu correo electrónico y haz clic en "Continuar".

2

Se enviará un código de 6 dígitos a tu correo electrónico. Pégallo y haz clic en "crear una cuenta".

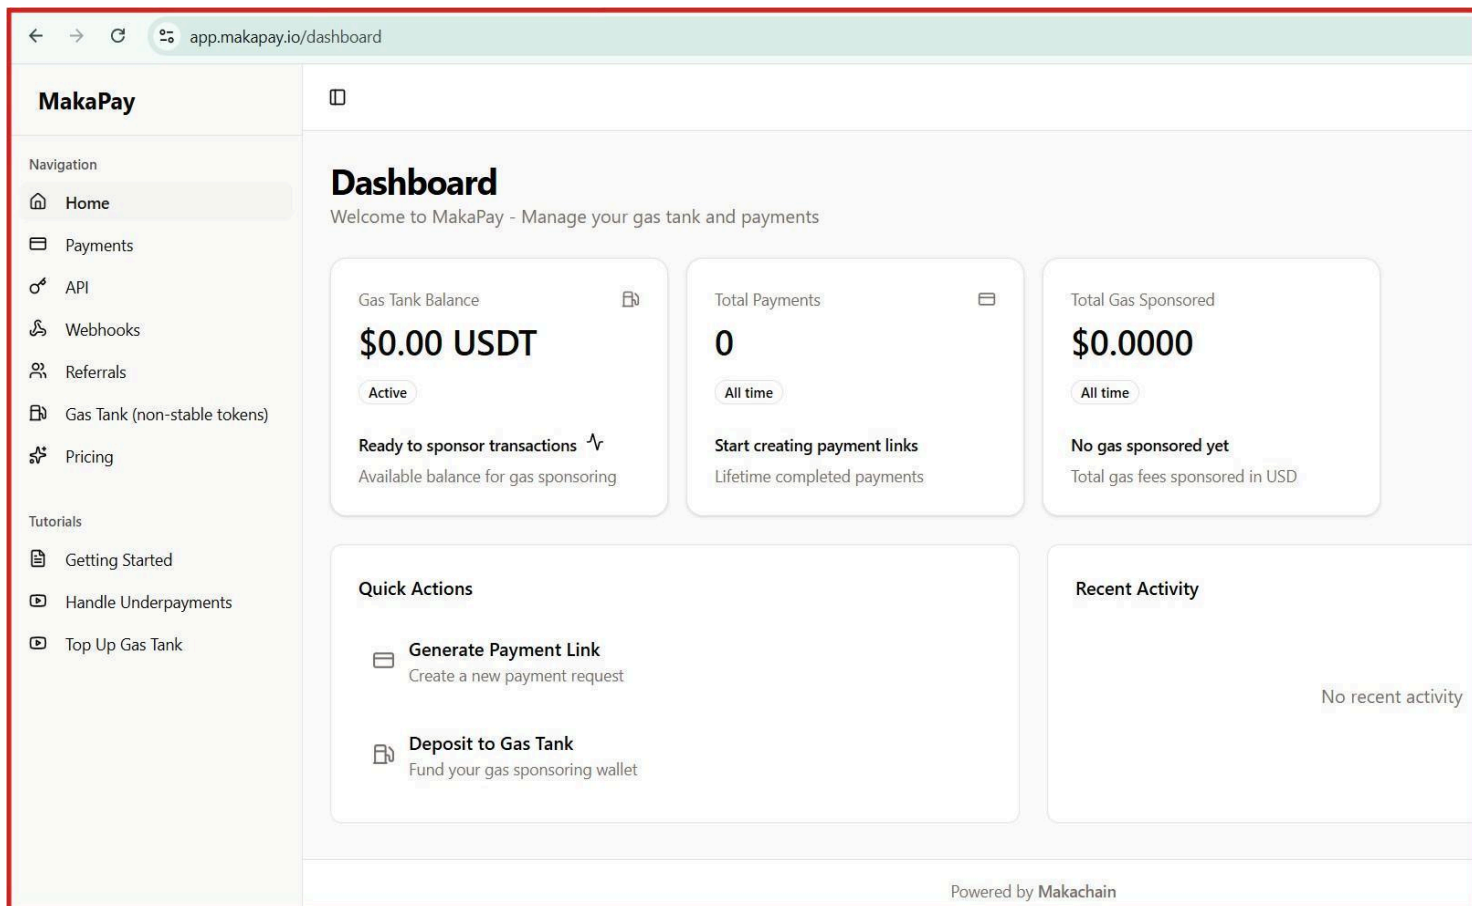

Como se mencionó antes, si ya tiene una cuenta, simplemente ingrese su correo electrónico. Le enviaremos un código de verificación a esa dirección, y una vez que lo ingrese, podrá iniciar sesión.

The screenshot shows a web browser window with the address bar displaying "app.makapay.io". The main content area features a light blue background with a white modal box in the center. The modal box is titled "Verify your email" and contains the instruction "Use the verification code sent to your email address". Below this is a six-digit input field, with a red arrow pointing to it from the right. Underneath the input field is a link that says "Didn't receive a code? Resend (57)". At the bottom of the modal is a black button labeled "Continue".

3

Entonces serás redirigido a la página del panel de control como se muestra a continuación.

The screenshot shows the MakaPay dashboard at the URL `app.makapay.io/dashboard`. The dashboard is divided into a left sidebar and a main content area.

Navigation Sidebar:

- Navigation
 - Home
 - Payments
 - API
 - Webhooks
 - Referrals
 - Gas Tank (non-stable tokens)
 - Pricing
- Tutorials
 - Getting Started
 - Handle Underpayments
 - Top Up Gas Tank

Main Content Area:

4.1

CREAR UN PAGO (Lado del comercio):

En el panel, encontrarás la sección de "Pagos" donde puedes crear un pago para tus clientes.

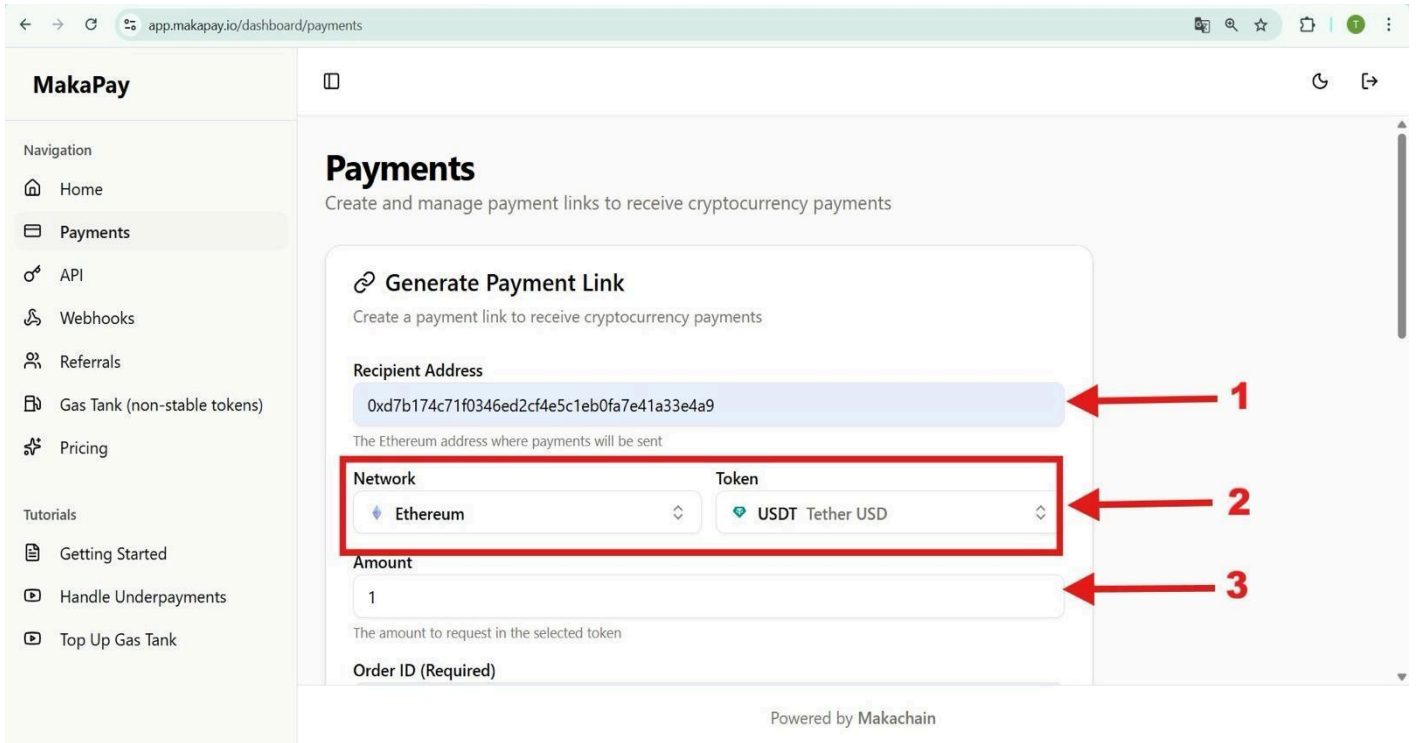

4.2

Primero necesitas copiar la dirección del destinatario.

2- Selecciona la Red y el Token

3- Luego, ingrese el número de tokens (para este ejemplo, 1 USDT).

The screenshot shows the MakaPay dashboard at app.makapay.io/dashboard/payments. The main section is titled "Payments" with the subtitle "Create and manage payment links to receive cryptocurrency payments". Below this is a "Generate Payment Link" section with the instruction "Create a payment link to receive cryptocurrency payments".

The form contains the following fields:

- Recipient Address:** A text input field containing the hexadecimal address `0xd7b174c71f0346ed2cf4e5c1eb0fa7e41a33e4a9`. A red arrow labeled "1" points to this field.
- Network:** A dropdown menu showing "Ethereum". A red arrow labeled "2" points to this field.
- Token:** A dropdown menu showing "USDT Tether USD". A red arrow labeled "2" points to this field.
- Amount:** A text input field containing the number "1". A red arrow labeled "3" points to this field.

Below the Amount field is a label "Order ID (Required)". At the bottom right of the dashboard, it says "Powered by Makachain".

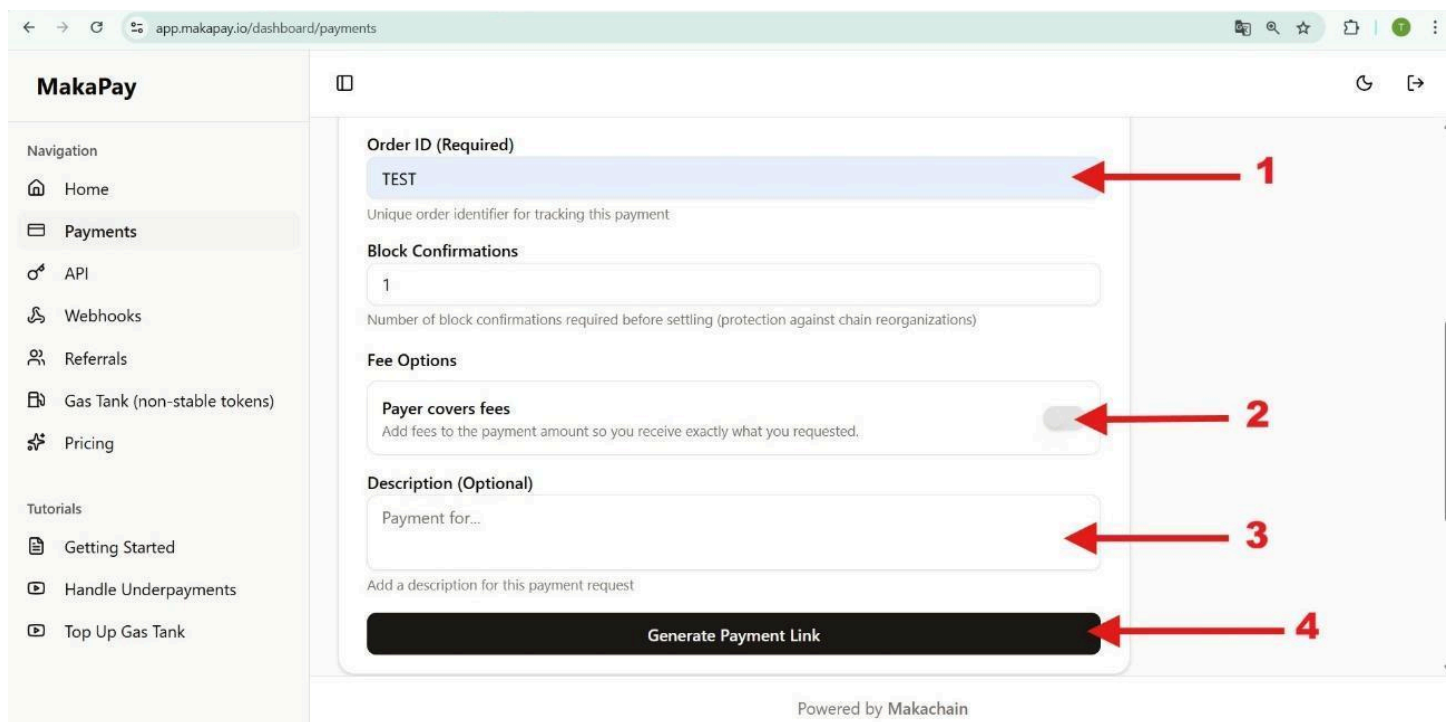

4.3

Escribe un ID de pedido de tu elección, para que el cliente pueda ver por lo que va a pagar.

2- Seleccione la opción en la que las tarifas van a ser pagadas por el cliente.

3. Agrega una descripción si lo deseas, ya que este campo es opcional.

4- Después de esto, haz clic en el botón Generar un enlace de pago.

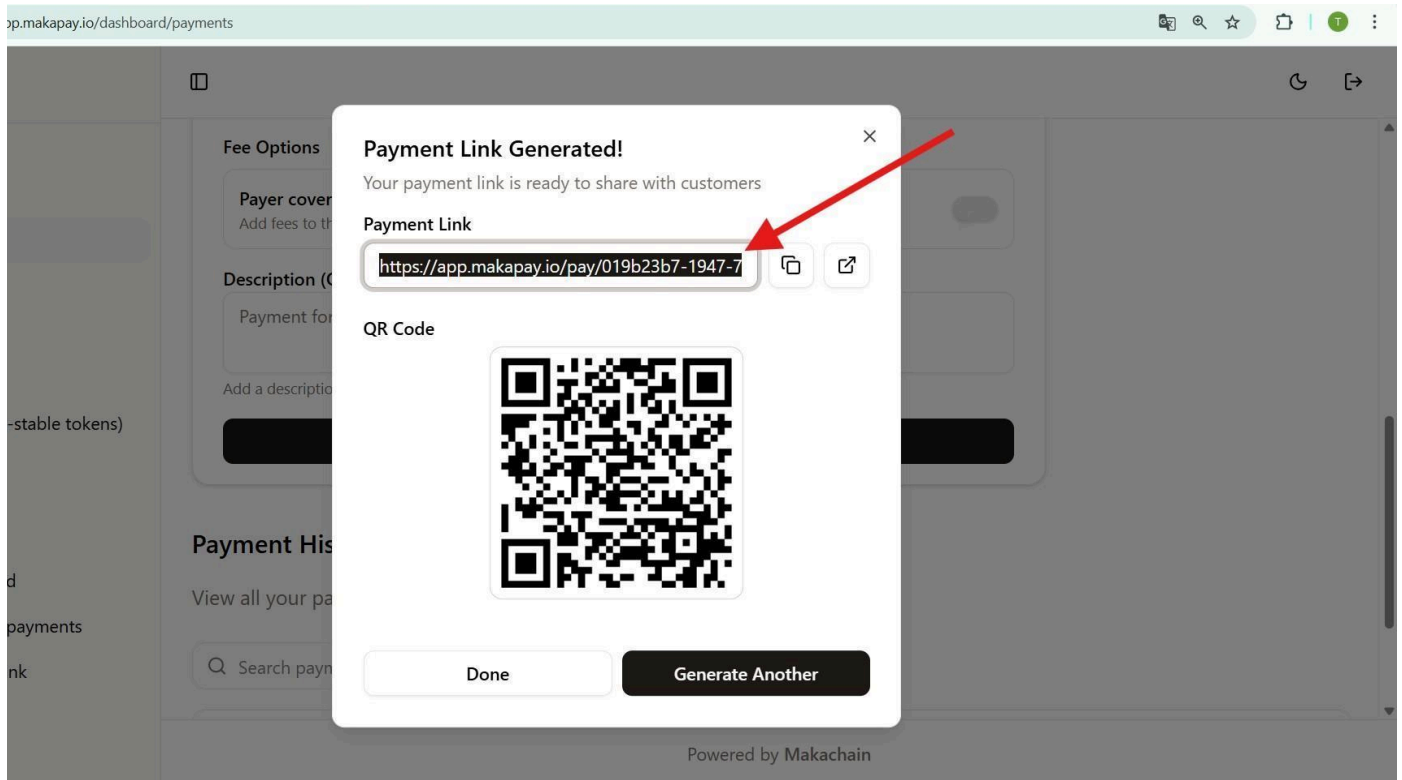

The screenshot shows the MakaPay dashboard at the URL `app.makapay.io/dashboard/payments`. The left sidebar contains navigation links: Home, Payments, API, Webhooks, Referrals, Gas Tank (non-stable tokens), and Pricing. Below these are tutorial links: Getting Started, Handle Underpayments, and Top Up Gas Tank. The main content area is titled "Order ID (Required)" and contains the following fields:

- Order ID (Required):** A text input field containing "TEST". A red arrow labeled "1" points to this field. Below the field is the text: "Unique order identifier for tracking this payment".
- Block Confirmations:** A text input field containing "1". Below the field is the text: "Number of block confirmations required before settling (protection against chain reorganizations)".
- Fee Options:** A section with a toggle switch labeled "Payer covers fees". The text below the toggle is: "Add fees to the payment amount so you receive exactly what you requested." A red arrow labeled "2" points to the toggle switch.
- Description (Optional):** A text input field containing "Payment for...". A red arrow labeled "3" points to this field. Below the field is the text: "Add a description for this payment request".
- Generate Payment Link:** A large black button with white text. A red arrow labeled "4" points to this button.

At the bottom of the dashboard, it says "Powered by Makachain".

5

Este es el enlace que necesita compartir con su cliente para que pueda realizar el pago.

6

Lado del cliente

Cuando el cliente abre el enlace enviado por el comerciante, se mostrará esta página. La página muestra los detalles de la transacción. En este ejemplo, el cliente verá un monto ligeramente superior a 1 USDT, ya que incluye las tarifas de transacción.

7

Como cliente, para enviar el pago, copie y pegue el enlace de pago que le ha enviado el comerciante. Y la cantidad de USDT (para este ejemplo, 1 USDT). Haga clic en el botón "Continuar".

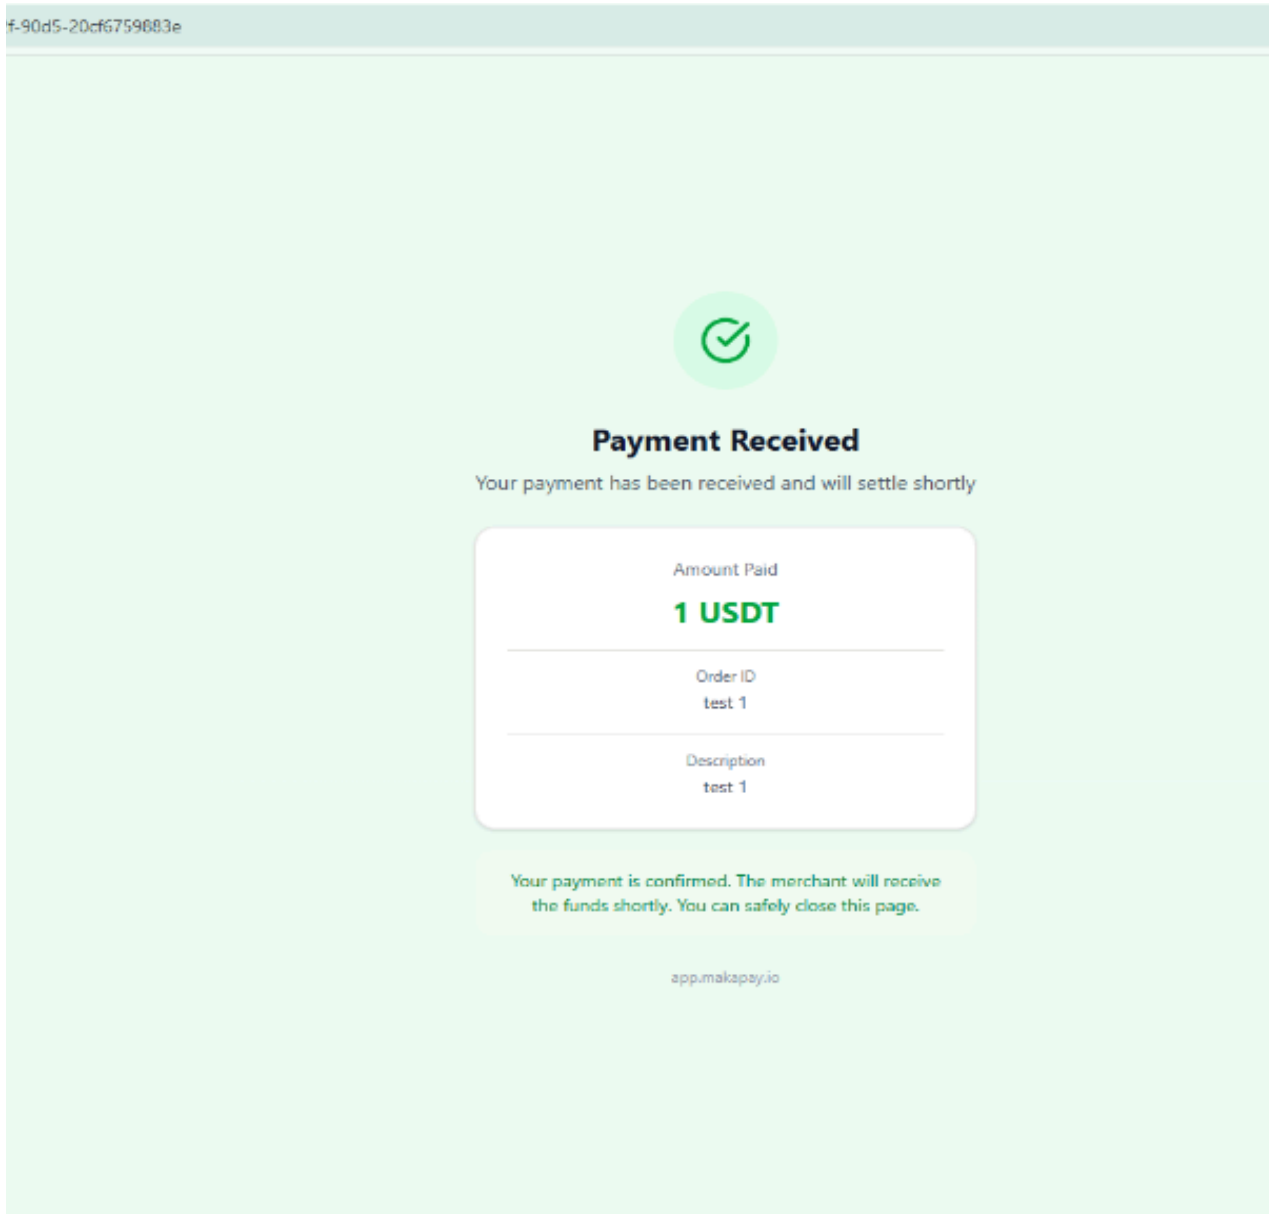

8

Luego, la transacción debe confirmarse haciendo clic en el botón "Confirmar".

9

Cuando un cliente completa un pago, después de unos segundos, esta pantalla se mostrará y la transacción se completará.

10

Y así es como se muestra el pago en el panel de control de pagos del lado del comercio, en la sección de Historial de pagos, donde se mostrará la transacción una vez completada.
