

MAKA
CHAIN

How to create a Makachain account and a transaction payment

MAKA
CHAIN

makachain.io

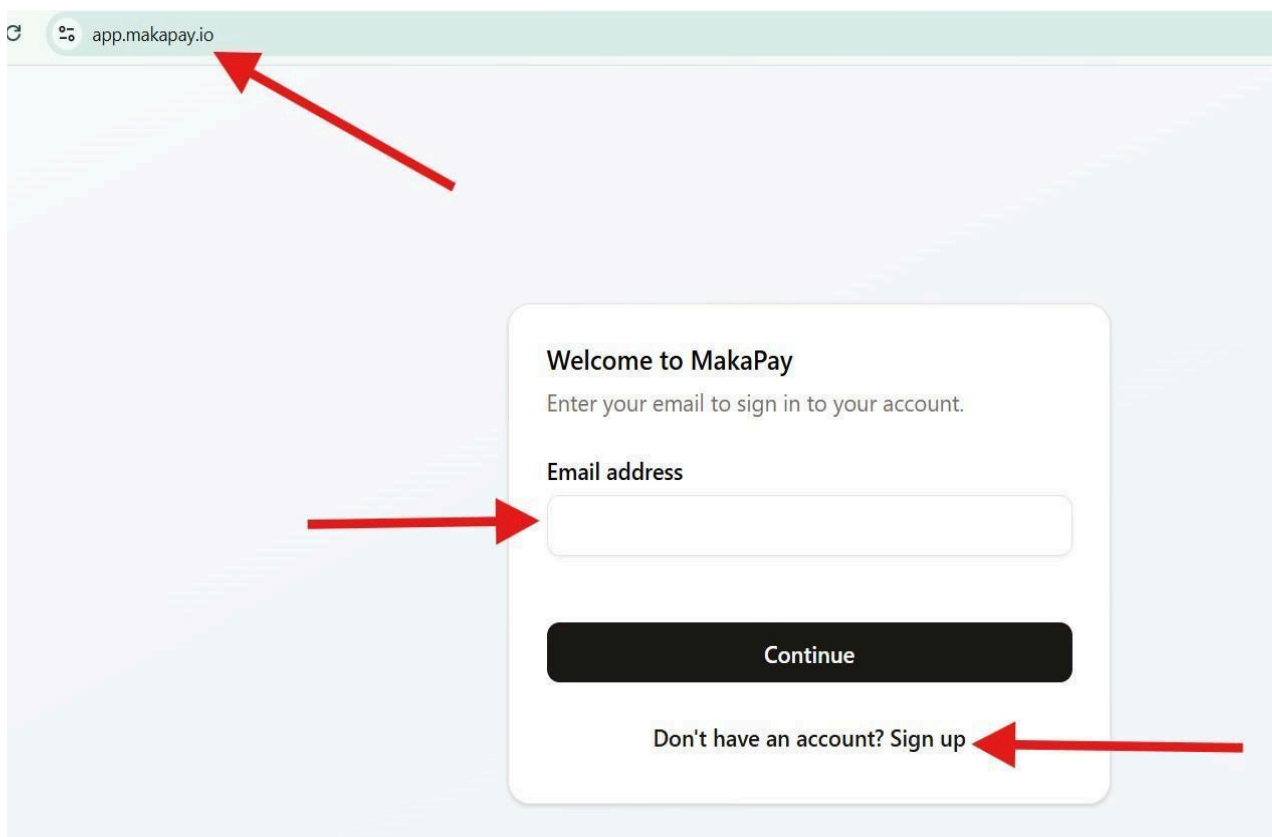

**Ce guide fournit des instructions
étape par étape sur la façon de
créer un compte Makachain et sur
la façon de créer un paiement de
transaction.**

Vous pouvez visionner le tutoriel vidéo ici :
<https://www.youtube.com/watch?v=6NXkyj8RSB4>

1

Pour créer un compte Makachain, vous devez d'abord aller sur <https://app.makapay.io/> et cliquer sur "Vous n'avez pas de compte ? Inscrivez-vous", puis ajouter votre adresse e-mail et cliquer sur "Continuer".

Si vous avez déjà créé votre compte, saisissez simplement votre adresse e-mail et cliquez sur « Continuer ».

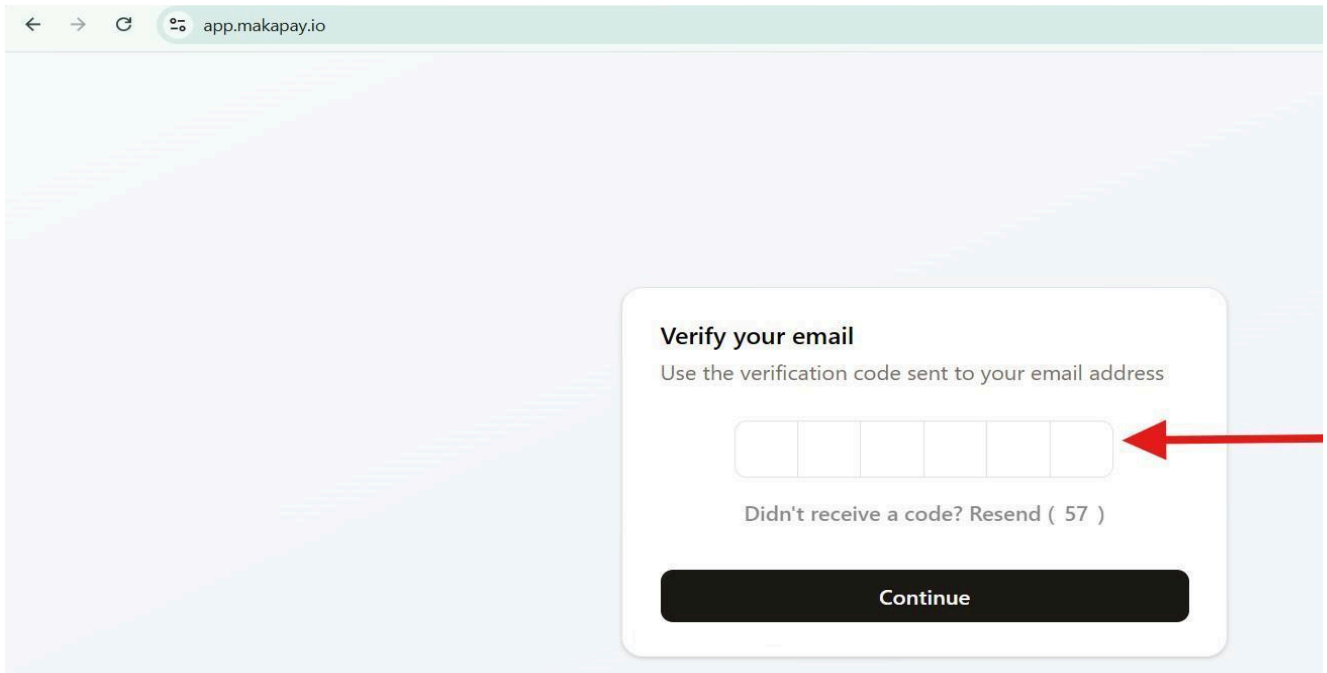

The screenshot shows the login page of the MakaPay application. The browser's address bar at the top displays 'app.makapay.io'. A red arrow points to this address bar. The main content area features a white login card with the heading 'Welcome to MakaPay' and the instruction 'Enter your email to sign in to your account.' Below this is a label 'Email address' followed by a text input field. A red arrow points to this input field. At the bottom of the card is a black button labeled 'Continue'. Below the card, there is a link that reads 'Don't have an account? Sign up'. A red arrow points to this link.

2

Un code à 6 chiffres sera envoyé à votre adresse e-mail. Copiez-collez-le et cliquez sur « créer un compte ».

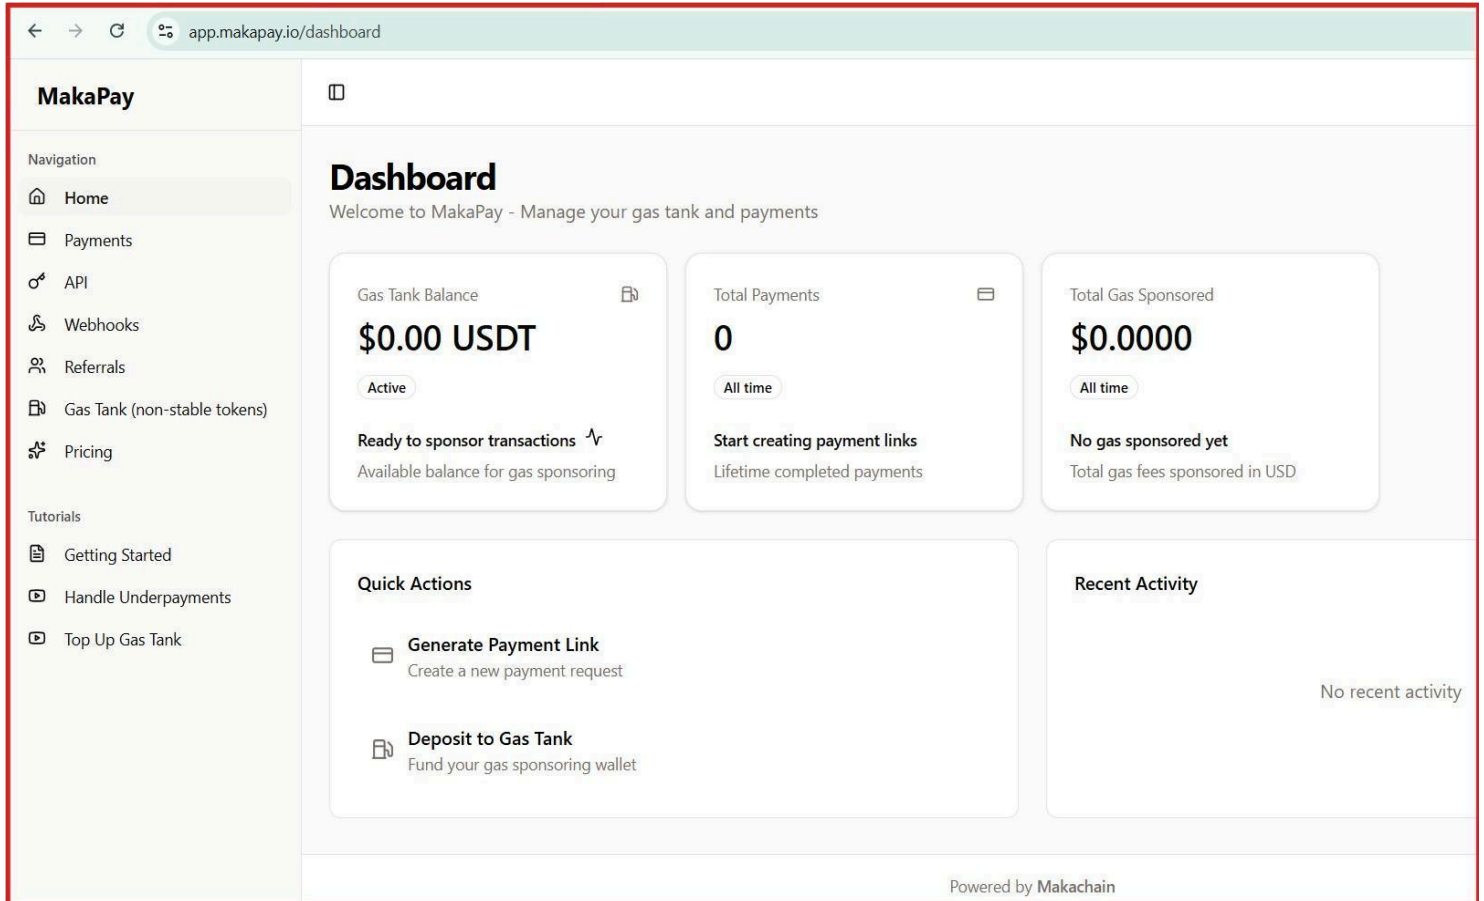

Comme mentionné précédemment, si vous avez déjà un compte, entrez simplement votre adresse e-mail. Nous vous enverrons un code de vérification à cette adresse, et une fois que vous l'aurez saisi, vous pourrez vous connecter.

The screenshot shows a web browser window with the address bar displaying "app.makapay.io". The main content area features a light blue background with a white modal box in the center. The modal box is titled "Verify your email" and contains the instruction "Use the verification code sent to your email address". Below this is a six-digit input field, with a red arrow pointing to it from the right. Underneath the input field is a link that says "Didn't receive a code? Resend (57)". At the bottom of the modal is a black button labeled "Continue".

3

Vous serez ensuite redirigé vers la page du tableau de bord comme illustré ci-dessous.

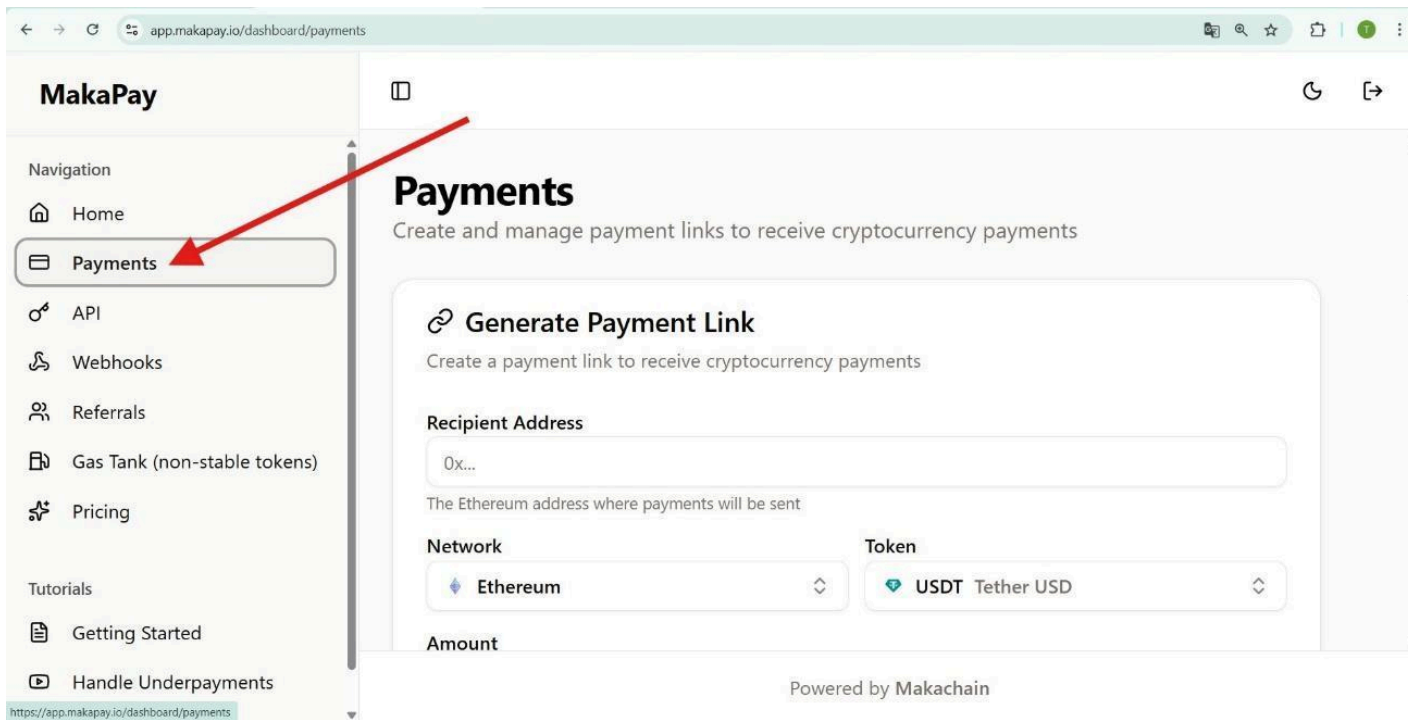

The screenshot shows the MakaPay dashboard at the URL `app.makapay.io/dashboard`. The dashboard is divided into a left sidebar and a main content area. The sidebar contains a 'MakaPay' header and two sections: 'Navigation' with links for Home, Payments, API, Webhooks, Referrals, Gas Tank (non-stable tokens), and Pricing; and 'Tutorials' with links for Getting Started, Handle Underpayments, and Top Up Gas Tank. The main content area has a 'Dashboard' title and a welcome message: 'Welcome to MakaPay - Manage your gas tank and payments'. It features three summary cards: 'Gas Tank Balance' showing '\$0.00 USDT' with an 'Active' status and a note 'Ready to sponsor transactions'; 'Total Payments' showing '0' with an 'All time' filter and a note 'Start creating payment links'; and 'Total Gas Sponsored' showing '\$0.0000' with an 'All time' filter and a note 'No gas sponsored yet'. Below these are two sections: 'Quick Actions' with 'Generate Payment Link' and 'Deposit to Gas Tank' options, and 'Recent Activity' which currently shows 'No recent activity'. The footer of the dashboard states 'Powered by Makachain'.

4,1

CRÉER UN PAIEMENT (Côté marchand)

Dans le tableau de bord, vous trouverez la section « Paiements » où vous pourrez créer un paiement pour vos clients.

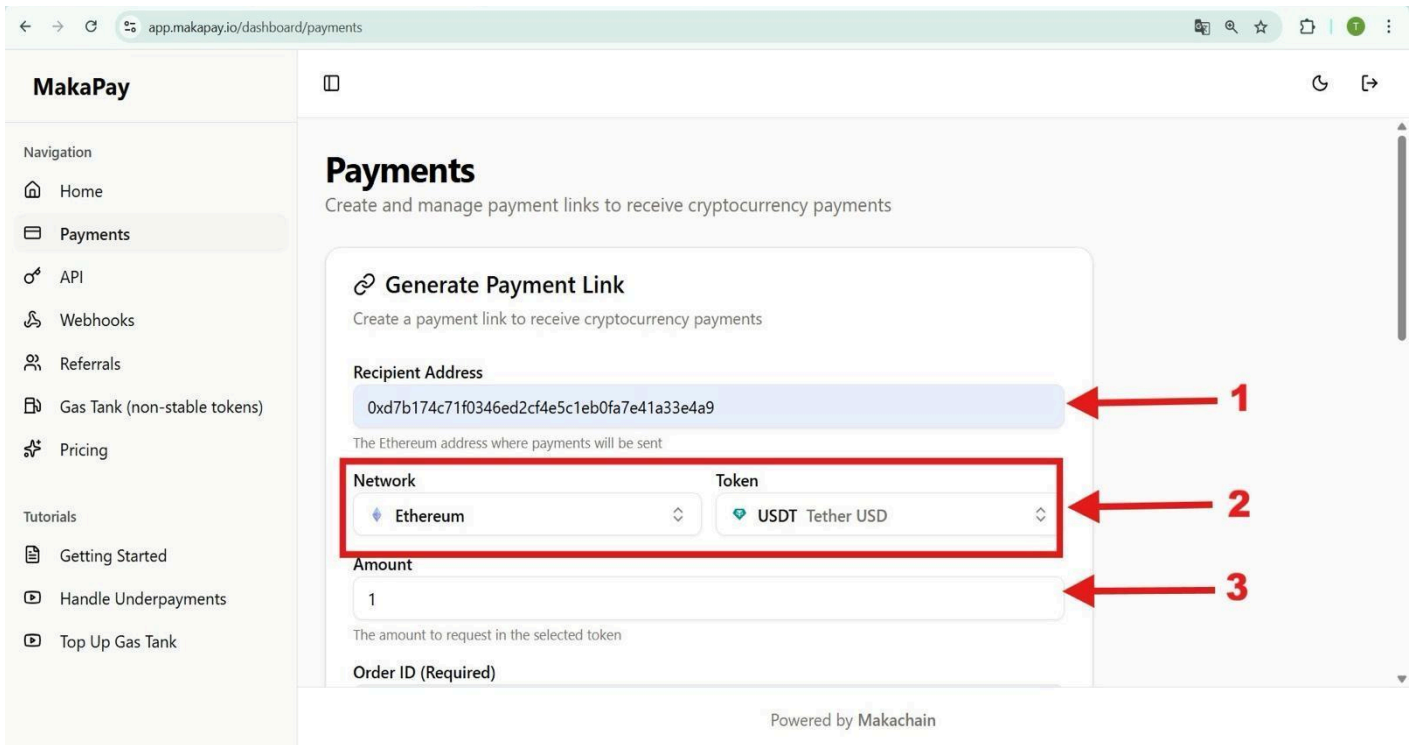

4,2

Il faut d'abord copier l'adresse du destinataire.

2- Sélectionnez le réseau et le jeton

3- Entrez ensuite le nombre de jetons (pour cet exemple, 1 USDT).

The screenshot shows the MakaPay dashboard at `app.makapay.io/dashboard/payments`. The left sidebar contains navigation links: Home, Payments, API, Webhooks, Referrals, Gas Tank (non-stable tokens), Pricing, and a section for Tutorials (Getting Started, Handle Underpayments, Top Up Gas Tank). The main content area is titled 'Payments' with the subtitle 'Create and manage payment links to receive cryptocurrency payments'. Below this is a 'Generate Payment Link' section with the instruction 'Create a payment link to receive cryptocurrency payments'. The form contains the following fields:

- Recipient Address:** A text input field containing the hexadecimal address `0xd7b174c71f0346ed2cf4e5c1eb0fa7e41a33e4a9`. A red arrow labeled '1' points to this field.
- Network:** A dropdown menu showing 'Ethereum'. A red arrow labeled '2' points to this field.
- Token:** A dropdown menu showing 'USDT Tether USD'. A red arrow labeled '2' points to this field.
- Amount:** A text input field containing the value '1'. A red arrow labeled '3' points to this field.

Below the Amount field is the label 'Order ID (Required)'. At the bottom right of the dashboard, it says 'Powered by Makachain'.

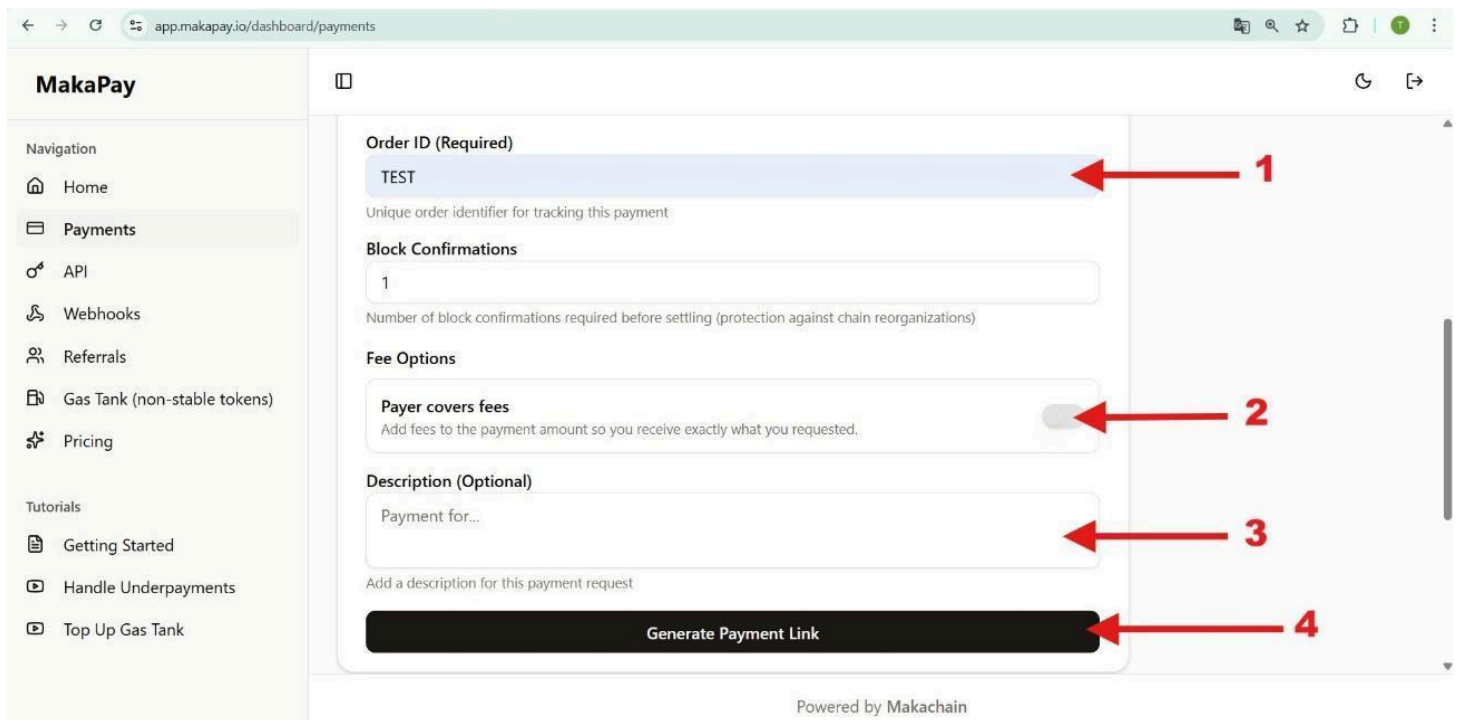

4,3

Saisissez un numéro de commande de votre choix, afin que le client puisse voir ce qu'il va payer.

2- Sélectionnez l'option où les frais seront payés par le client.

3- Ajoutez une description si vous le souhaitez, ce champ étant facultatif.

4- Après cela, cliquez sur le bouton Générer un lien de paiement.

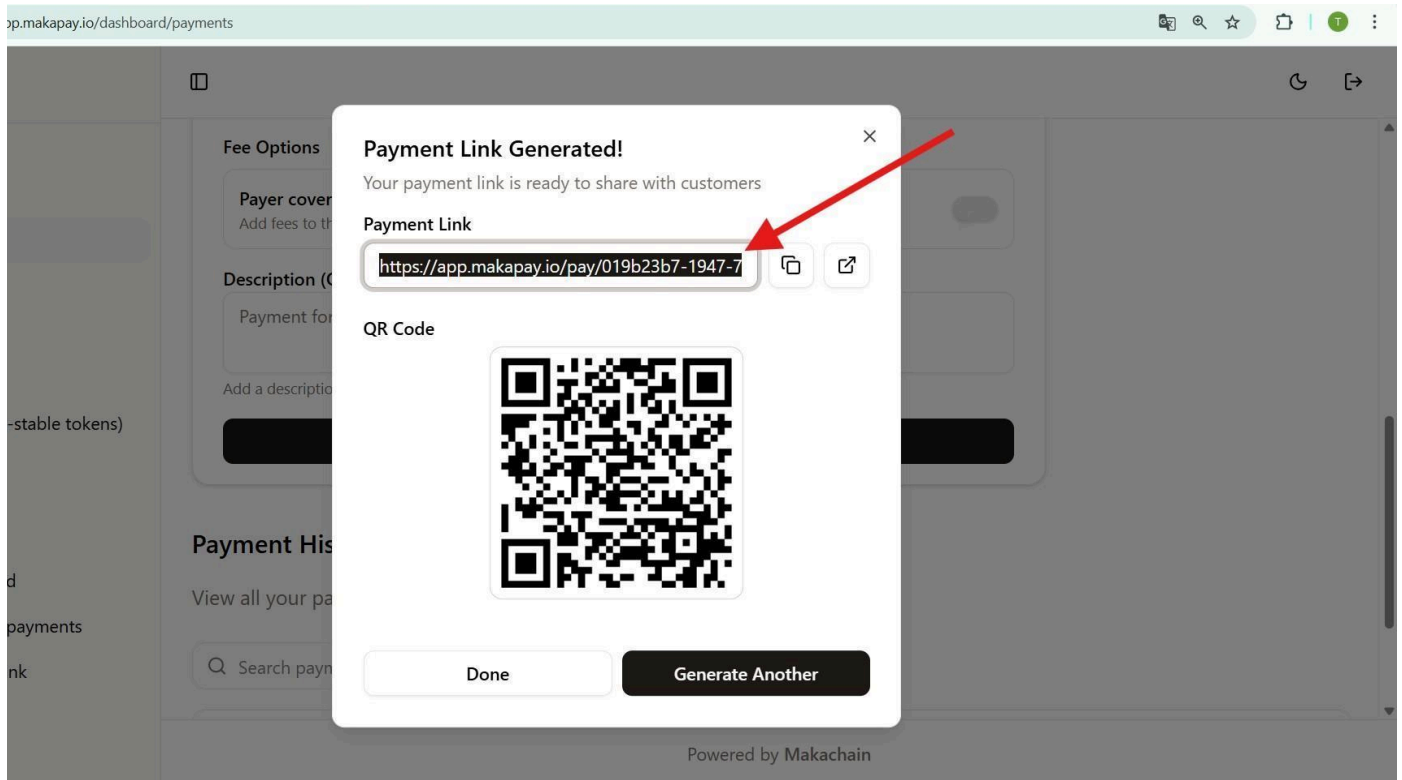

The screenshot shows the MakaPay dashboard at the URL `app.makapay.io/dashboard/payments`. The left sidebar contains navigation links: Home, Payments, API, Webhooks, Referrals, Gas Tank (non-stable tokens), and Pricing. Below these are tutorial links: Getting Started, Handle Underpayments, and Top Up Gas Tank. The main content area is titled "MakaPay" and contains the following fields and controls:

- Order ID (Required):** A text input field containing "TEST". A red arrow labeled "1" points to this field. Below the field is the text: "Unique order identifier for tracking this payment".
- Block Confirmations:** A text input field containing "1". Below the field is the text: "Number of block confirmations required before settling (protection against chain reorganizations)".
- Fee Options:** A section with a toggle switch labeled "Payer covers fees". The text below the toggle is: "Add fees to the payment amount so you receive exactly what you requested." A red arrow labeled "2" points to the toggle switch.
- Description (Optional):** A text input field containing "Payment for...". Below the field is the text: "Add a description for this payment request". A red arrow labeled "3" points to this field.
- Generate Payment Link:** A large black button with white text. A red arrow labeled "4" points to this button.

At the bottom of the dashboard, it says "Powered by Makachain".

5

Voici le lien que vous devez partager avec votre client afin qu'il puisse effectuer le paiement.

6

Côté client

Lorsque le client ouvre le lien envoyé par le marchand, cette page s'affiche. La page présente les détails de la transaction. Dans cet exemple, le client verra un montant légèrement supérieur à 1 USDT, car il inclut les frais de transaction.

7

En tant que client pour envoyer le paiement, copiez et collez le lien de paiement que le commerçant vous a envoyé. Et le montant d'USDT (pour cet exemple, 1 USDT). Cliquez sur le bouton « Continuer ».

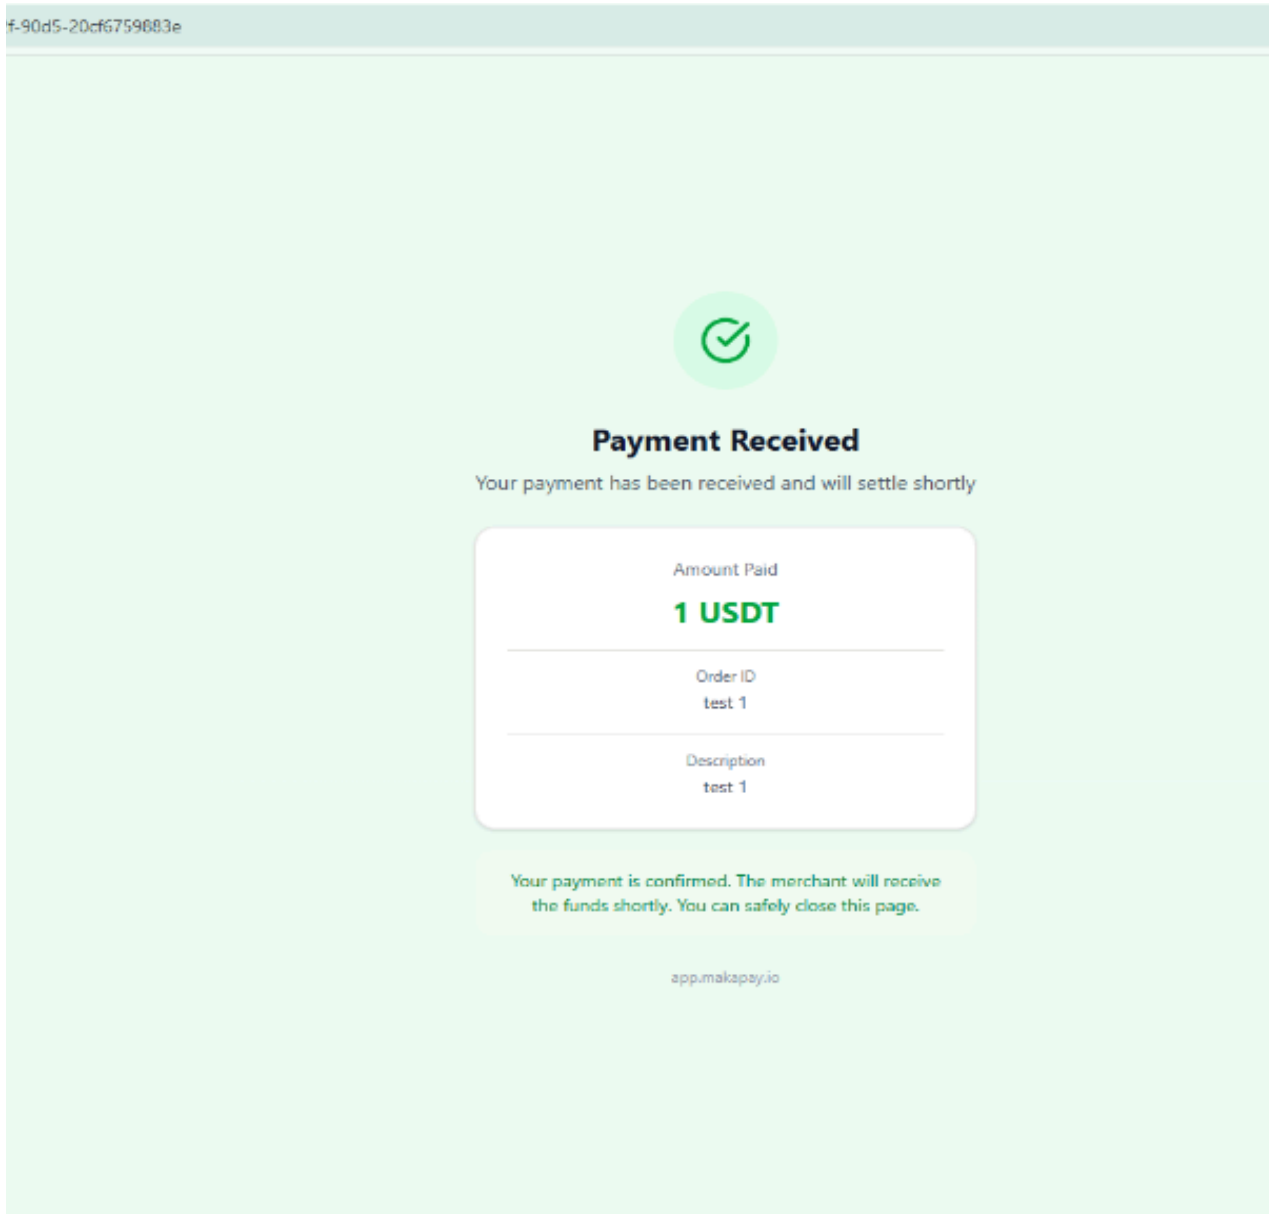

8

Ensuite, la transaction doit être confirmée en cliquant sur le bouton « Confirmer ».

9

Lorsqu'un client effectue un paiement, après quelques secondes, cet écran s'affichera et la transaction sera terminée.

10

Et voici comment le paiement apparaît dans le tableau de bord des paiements côté commerçant, dans la section Historique des paiements où la transaction sera affichée une fois terminée.
